Rollovers, Interest

A daily financing charge may apply to each CFD open position at the closing of the Company's trading day as regard to that CFD. If such a financing charge is applicable, it will be requested to be paid by Customer directly to the Company. The method of calculation of the financing charge varies according to the type of CFD to which it applies. Moreover, the amount of the financing charge will vary as it is linked to current interest rates. The financing charge will be credited or debited (as appropriate) to Customer's account on the next trading day following the day to which it relates.

The Company reserves the right to change the method of calculating the financing charge, the financing rates and/or the types of CFDs to which the financing charge applies. For certain types of CFDs, a commission is payable by the Customer to open and close CFD positions. Such commission payable will be debited from the Customer's account at the same time as the Company opens or closes the relevant CFD. Changes in our swap interest rates and calculations shall be at our own discretion and without notice. Clients need to always check our website for the then current rates charged. Rates may change quickly due to market conditions (changes in interest rates, volatility, liquidity etc.) and due to various risk-related matters that are at the firm's sole discretion.

6. RIGHT TO CANCEL

A cancel of order request can be processed only in the cases in which no orders were executed by the Execution Venue. In this case, the same method of payment used for the deposit will be used for the refund. THE COMPANY WILL NOT REFUND FUNDS LOST IN TRADING.

The Company will proceed with the refund of Client funds upon receipt of the request within five working days as the request is made. If the Client's request is received outside normal working hours the five working days will count from the next working day of the client's request receipt.

9. TRADING POLICIES AND PROCEDURES

Placing of trading instructions

You may open positions through the Company's Online Trading System (Trading Platform) as the Company does not accept or place any manual orders of any form, on your behalf.

Types of Orders Accepted

Some of the types of orders the Company accepts include, but are not limited to:

- a. **Good till Cancelled (“GTC”)**- An order (other than a market order), that by its terms is effective until filled or cancelled by Customer. GTC Orders do not automatically cancel at the end of the Business Day on which they are placed.
- b. **Limit**- An order (other than a market order) to buy or sell the identified market at a specified price. A limit order to buy generally will be executed when the ask price equals or falls below the bid price that you specify in the limit order. A limit order to sell generally will be executed when the bid price equals or exceeds the ask price that you specify in the limit order.
- c. **Market**- An order to buy or sell the identified market at the current market price that the Company provides via the Online Trading System. An order to buy is executed at the current market ask price and an order to sell is executed at the current market bid price.
- d. **Stop Loss**- A stop loss order is an instruction to buy or sell a market at a price which is worse than the opening price of an open position (or worse than the prevailing price when applying the stop loss order to an already open position). It can be used to help protect against losses. Please note that because of market gapping, the best available price that may be achieved could be materially different to the price set on the stop loss order and as such, stop loss orders are not guaranteed to take effect at the price for which they are set.
- e. **Trailing Stop**- A trailing stop is the same as a stop loss order with the only difference being that, instead of setting a price at which the order is activated, the trailing stop order is activated at a fixed distance from the market price. For example, if Customer has purchased a long open position and the market ask price increases, the trailing stop price will also increase and will trail behind the market ask price at the fixed distance set by Customer. If the market ask price then decreases, the trailing stop price will remain fixed at its last position and if the market ask price reaches the trailing stop price, the order will be executed. Please note that because of market gapping, the best available price that may be achieved could be materially different to the price set on the trailing stop order and as such, trailing stop orders are not guaranteed to take effect at the fixed distance for which they are set.

Following submission of an order, it is your sole responsibility to remain available for order and fill confirmations, and other communications regarding your Account until all open orders are completed. Thereafter, you must monitor your Account frequently when you have open positions in the Account.

Your order shall be valid in accordance with the type and time of the given order, as specified. If the time of validity or expiration date/time of the order is not specified, it shall be valid for an indefinite period.

Terms of Acceptance for Orders

It is your sole responsibility to clearly indicate the terms of an order when entered, whether it is a market order, limit order, stop loss order or any other type of order, including the relevant price and lot size. You acknowledge and agree that, despite our best efforts, the price at which execution occurs may be materially different to the price specified in your order. This may result from sudden price movements in the underlying assets that are beyond our control. The Company shall have no liability for failure to execute orders. The Company shall have the right, but not the obligation, to reject any order in whole or in part prior to execution, or to cancel any order, where your Account contains margin that is insufficient to support the entire order or where such order is illegal or otherwise improper.

Cancellation of trades

We have the right to reject an order or to cancel a trade if we have evidence on:

1. fraud/illegal actions that led to the transaction;

2. any instance when the Company has cause to believe that a person's trading activities may be illegal;
3. any instance where The Company may suffer any fiscal, regulatory, or pecuniary disadvantage by virtue of anyone's activities.
4. any instance where one or more transactions are judged by the Company to have been performed in violation of this Agreement.
5. orders placed based on manipulated prices because of system errors or system malfunctions.
6. arbitrage trading on prices offered by our platforms because of systems errors; and
7. coordinated transactions by related parties to take advantage of systems errors and delays on systems updates.

We reserve the right to cancel any and/or all trading positions and withhold and/or forfeit any profits incurred by the Customer on all the Customer's trades if we consider that that the Customer has engaged in market Arbitrage.

Cancellation/withdrawal of instructions

Non-market orders may be cancelled via the Company Online Trading System, but we can only cancel your instructions if you explicitly request so, provided that we have not acted up to the time of your request upon those instructions. Executed instructions may only be withdrawn or amended by you. The Company shall have no liability for any claims, losses, damages, costs or expenses, including legal fees, arising directly or indirectly out of the failure of such order to be cancelled.

Right not to accept orders

We may, but shall not be obliged to, accept instructions to enter into a Transaction. If we decline to enter into a proposed Transaction, we shall not be obliged to give a reason, but we shall promptly notify you accordingly.

Control of orders prior to execution

We have the right (but not the obligation) to set limits and/or parameters to control your ability to place orders at our absolute discretion. Such limits and/or parameters may be amended, increased, decreased, removed or added to by us at our absolute discretion and may include (without limitation):

- a. controls over maximum order amounts and maximum order sizes;
- b. controls over our total exposure to you;
- c. controls over prices at which orders may be submitted (to include (without limitation) controls over orders which are at a price which differs greatly from the market price at the time the order is submitted to the order book);
- d. controls over the Electronic Services (to include (without limitation) any verification procedures to ensure that any particular order or orders has come from you); and/or
- e. any other limits, parameters or controls which we may be required to implement in accordance with Applicable Laws.

Trade Adjustments

Customers must be aware that foreign exchange transactions carry a high degree of risk. The amount of initial margin may be small relative to the value of the foreign currency so that transactions are leveraged.

Due to the usage of the Company's services, it exclusively reserves the right to widen its variable spreads, adjust the leverage limits, change its rollover rates and/or increase the margin requirements without prior notice under certain market conditions including, but not limited to, when the trading desk is closed, around fundamental announcements, as a result of changes in credit markets and/or at times of extreme market volatility. In such circumstances, the Customer agrees to indemnify the Company for all losses that may occur due the widening of spreads and the adjustment of leverage.

Confirmations

At the end of each trading day, confirmations for all Transactions which have executed through the Company's Execution Venue on that trading day, will be available on your online trading Account on our website, which is updated as each Transaction is executed. Confirmation of execution and statements of your Account(s), in the absence of manifest error, shall be deemed correct, conclusive and binding.

In cases where the prevailing market represents prices different from the prices posted by the Company, the Company will attempt, on a best-efforts basis and in good faith, to execute market orders on or close to the prevailing market prices. This may or may not adversely affect customers realized and unrealized gains and losses.

Improper or Abusive Trading

The Company's objective is to provide the most efficient trading liquidity available in the form of streaming, tradable prices for most of the financial instruments we offer on the trading platform. As a result of the highly automated nature of the delivery of these streaming, tradable prices, you acknowledge and accept that price misquotations are likely to occur from time to time.

Should you execute trading strategies with the objective of exploiting such misquotation(s) or act in bad faith (commonly known as 'sniping'), the Company shall consider this as unacceptable behavior. Should the Company identify, at its sole discretion and in good faith, that you or any representative of yours trading on your behalf is taking advantage, benefitting, attempting to take advantage or to benefit of such misquotation(s) or that you are committing any other improper or abusive trading act such as for example:

- a. fraud/illegal actions that led to the transaction;
- b. orders placed based on manipulated prices as a result of system errors or system malfunctions;
- c. arbitrage trading on prices offered by our platforms as a result of systems errors; and/or
- d. coordinated transactions by related parties in order to take advantage of systems errors and delays on systems updates.

Then the Company will have the right to:

- a. adjust the price available to you; and/or
- b. remove the illicit profit without the clients' initial deposit been affected;
- c. restrict your access to streaming, instantly tradable quotes, including providing manual quotation only; and/or
- d. obtain from your account any historic trading profits that you have gained through such abuse of liquidity as determined by us at any time during our trading relationship; and/or
- e. reject an order or to cancel a trade; and/or
- f. immediately terminate our trading relationship.

The use of any robots, AI, algorithmic trading, or any form of computerized trading code or software with the Trading Platform is strictly prohibited. Any such use is entirely at the Client's own risk, and the Company assumes no responsibility or liability for any resulting losses or damages.

The Company makes no representations or warranties regarding the accuracy, functionality, performance, or reliability of any robots or algorithmic trading solutions, and expressly disclaims any liability for errors, malfunctions, or failures associated with their use. The Client acknowledges that the use of robots or algorithmic trading is highly risky and that any such activity constitutes a material breach of this Agreement. In the event the Company, in its sole discretion, reasonably suspects that a Client is utilizing any form of AI, algorithmic trading, or computerized trading software in connection with their account, this shall constitute an immediate act of default.

As a result, the Company shall have the right to take immediate action, including, but not limited to, suspending or terminating the Client's account, freezing any funds, and pursuing any other legal or contractual remedies available as referenced in this Agreement or any applicable laws.

Any transaction executed through the use of such prohibited systems will be deemed to have been executed by the Client and will not be considered valid or authorized by the Company.

Position limits

We may require you to limit the number of open positions which you may have with us at any time, and we may in our sole discretion close out any one or more Transactions in order to ensure that such position limits are maintained.

Trailing Stop functionality in case that the trading platform terminal is closed

In the event that the trading platform terminal is closed, the trailing stop will not work. This happens as the trailing stop works on the client terminal side and in this respect, if the client terminal is closed, only the stop loss that was placed by trailing stop before the closing of the terminal can trigger.

Liquidation Date

Subject to the following sub-clause, at any time following the occurrence of an Event of Default, we may, by notice to you, specify a date (the “**Liquidation Date**”) for the termination and liquidation of Transactions in accordance with this clause.

Automatic termination

The date of the occurrence of any Bankruptcy Default shall automatically constitute a Liquidation Date, without the need for any notice by us and the provisions of the following sub-clause shall then apply.

Calculation of Liquidation Amount

Upon the occurrence of a Liquidation Date:

i. neither of us shall be obliged to make any further payments or deliveries under any Transactions which would, but for this clause, have fallen due for performance on or after the Liquidation Date and such obligations shall be satisfied by settlement (whether by payment, set-off or otherwise) of the Liquidation Amount (as defined below); ii. we shall (on, or as soon as reasonably practicable after, the Liquidation Date) determine (discounting if appropriate), in respect of each Transaction the total cost, loss or, as the case may be, gain, in each case expressed in the Base Currency specified by us in writing or, failing any such specification, the lawful currency of the United States (and, if appropriate, including any loss of bargain, cost of funding or, without duplication, cost, loss or, as the case may be, gain as a result of the termination, liquidation, obtaining, performing or re-establishing of any hedge or related trading position) as a result of the termination, pursuant to this Agreement, of each payment or delivery which would otherwise have been required to be made under such Transaction (assuming satisfaction of each applicable condition precedent and having due regard, if appropriate, to such market quotations published on, or official settlement prices set by the relevant exchange as may be available on, or immediately preceding, the date of calculation); and iii. we shall treat each cost or loss to us, determined as above, as a positive amount and each gain by us, so determined, as a negative amount and aggregate all such amounts to produce a single, net positive or negative amount, denominated in the Base Currency (the “**Liquidation Amount**”).

Payer

If the Liquidation Amount determined pursuant to this clause is a positive amount, you shall pay it to us and if it is a negative amount, we shall pay it to you. We shall notify you of the Liquidation Amount, and by whom it is payable, immediately after the calculation of such amount.

Other transactions

Where termination and liquidation occur in accordance with this clause, we shall also be entitled, at our discretion, to terminate and liquidate, in accordance with the provisions of this clause, any other transactions entered between us which are then outstanding.

Payment

The Liquidation Amount shall be paid in the Base Currency by the close of business on the Business Day following the completion of the termination and liquidation under this clause (converted as required by

applicable law into any other currency, any costs of such conversion to be borne by you, and (if applicable) deducted from any payment to you). Any Liquidation Amount not paid on the due date shall be treated as an unpaid such amount and bear interest, at the average rate at which overnight deposits in the currency of such payment are offered by major banks in the London interbank market as of 11.00 am (London time) (or, if no such rate is available, at such reasonable rate as we may select) plus one (1%) per annum for each day for which such amount remains unpaid.

Base Currency

For the purposes of any calculation hereunder, we may convert amounts denominated in any other currency into the Base Currency at such rate prevailing at the time of the calculation as we shall reasonably select.

Payments

Unless a Liquidation Date has occurred or has been effectively set, we shall not be obliged to make any payment or delivery scheduled to be made by us under a Transaction for as long as an Event of Default or any event which may become (with the passage of time, the giving of notice, the making of any determination hereunder, or any combination thereof) an Event of Default with respect to you has occurred and is continuing.

This Agreement, the terms applicable to each Transaction entered into under this Agreement, and all amendments to any of them shall together constitute a single agreement between us. We both acknowledge that all Transactions entered into on or after the date this Agreement takes effect are entered into in reliance upon the fact that the Agreement and all such terms constitute a single agreement between us.

15. RIGHTS ON DEFAULT**Default**

On an Event of Default or at any time after we have determined, in our absolute discretion, that you have not performed (or we reasonably believe that you will not be able or willing in the future to perform) any of your obligations to us, in addition to any rights under the Clause 15 (Netting) we shall be entitled, without prior notice to you:

- iii. to close out, replace or reverse any Transaction, buy, sell, borrow or lend or enter into any other Transaction or take, or refrain from taking, such other action at such time or times and in such manner as, at our sole discretion, we consider necessary or appropriate to cover, reduce or eliminate our loss or liability under or in respect of any of your contracts, positions or commitments; and/or
- iv. to cancel and/or consider void any Transactions and profits or losses either realized or unrealized and/or to close out the account(s) you maintain with us pursuant to this Agreement, immediately and without prior notice.

16. TERMINATION WITHOUT DEFAULT

If you do not maintain your margin balances your position may be closed out at a loss and you will be liable for any resulting deficit. All positions carry margin requirements between 2% and 5.
